

DORMITORIES

The university is located in a small picturesque city of Gorno-Altaiisk. There are no separate dormitories for international students. They live together with the Russian students in three dorms located in the center of the city within walking distance of each other and all educational buildings.

All dorms are of “section type”:

1. blocks of two rooms with a shared kitchen and bathroom with shower;
2. blocks of two or three rooms with a shared kitchen and bathroom, but showers are located in a separate room and shared by all students living in the dormitory.

Students live two-four persons per room, depending on its size. The rooms have all the necessary furniture (beds, desks, chairs, and wardrobes); students are provided with bedding. There is free wi-fi, a laundry, a study room, and a small assembly hall in each dormitory.

The accommodation fee is 1290 rubles per month, including utilities (water, electricity, etc.).
